## KMNR gets ready for one last bash

Casey Morriss  
Staff Writer

As the semester begins to wind down, student-run station KMNR is throwing one last bash. On Friday, April 19 and Saturday, April 20, KMNR will sponsor a free concert featuring live bands from around the region the country.

The event will kick-off at 1:00 on Friday, at the Firepit located between State St. and the Chemical Engineering building. There are nine bands scheduled to play Friday afternoon and evening, including the St. Louis Band MU330 which UMR students may remember from appearances at past "Freaker's Balls." In consideration of residences near campus, the concert will be over around midnight on Friday.

The music on Saturday will start up at noon at the Fraternity Row Fields across I-44. There are currently five bands scheduled to perform on Satur-

day, but according to Jason Kinnear, KMNR Station Manager, there is the chance that this number will grow between now and the day of the concert.

On both days, the Society of Hispanic Professional Engineers, along with the DaVinci society, will be selling food, and Kinnear is looking into the possibility of volleyball nets and other games for Saturday afternoon.

According to Kinnear, the station has been planning this event since the middle of last semester, as part of its effort to become more visible to, and involved with, the student body.

Kinnear, along with Music Director Mike Pauli and Public Relations Director Mike Vincent, decided that the station should use money from its budget to put on a free show for students. "We're stretching our budget pretty thin," Kinnear said, "We've had to put off buying some new equipment, but we're really trying to do things to let the students know we're here."

Originally, there had been plans to bring one fairly big name act, but financial and scheduling problems made such a concert impossible. In light of this, the station decided to get several

small bands and stretch the event out to two days. "Several of the Missouri bands are playing for nothing more than gas money down here," Kinnear said.

Highlights of the concert include MU330 which will be promoting its brand new CD; the band Atomic Boy out of Los Angeles; One Violet Green, which played at last year's Freaker's Ball; and from Austin, Texas, Mineral. According to Kinnear, Mineral is a "major up and coming band" that is beginning to get air time on both radio and TV.

The entire schedule for the two day event is as follows:

Friday: 1:00 pm - Geisha Men, 2:30 - Clear Glass Religion, 3:45 - Volatiles (St. Louis), 5:00 - Mineral, 6:15 - Bill Wennington Fan Club (Lawrence, KS), 7:30 - Gadgets (Lawrence, KS), 8:45 - Atomic Boy (Los Angeles, CA), 10:00 - MU330, and 11:15 - One Violet Green (Springfield, MO).

Saturday: Noon - Liar Liar (Fayetteville), 1:30 - Poesis, 3:00 - Black Dog Blues Band (St. Louis), 4:30 - Orangetree (St. Louis), 6:00 - Fears For Art (Columbia, MO).

## UMR celebrates diversity

Ryan Shawgo

UMR began its first annual celebration of Diversity Week this past Monday afternoon with an ice cream social at the puck. Other events scheduled for this week include Cultural Jeopardy, which was held on Tuesday afternoon, a program entitled "I am a RACIST," which will be held at noon Wednesday at the puck, and a series of four cultural films which will run each evening at 8 p.m. through Thursday at the Black Culture House. Student Council and the UMR Spanish club will also sponsor a party at 8:30 p.m. Saturday in the TJ-South Lounge.

## CSO protection ending

Roy Jacobs  
Staff Writer

Campus Student Officer (CSO) protection on campus will end after dead week. An abnormally busy semester and a short handed UMR Police force have caused the CSO program to fall victim to budget problems this past month.

The CSOs, who have supplemented the University Police, have been forced to work extra hours this semester since the police are currently short two officers. The lack of officers, in combination with the increase of crime on the UMR campus, has forced the department to expand the role of CSO and has placed an increasing strain on their budget.

Now lack of funds threaten to end the program before the school year is over.

Chief Bleckman, along with university officials, reviewed the department's budget looking for possible options to keep the program running at least until the end of the semester. Two of the options considered most viable by the university included suspending the program entirely and not filling any vacancies within the program.

After careful consideration of both options, a decision was made not to fill the vacant positions in the department until a further date. While this decision will allow the CSO program to continue until dead week, the program will not have funds to operate during the summer semester. There is still no word about if the CSO program will return for the fall semester.

## Activities transcripts available

Amy Jones  
Staff Writer

The Co-curricular Assessment of Skills and Education (CASE), a development of the Office of Student Activities and University Center and a part of the Professional Development Plan for Students, recently surfaced on the World Wide Web.

"It [CASE] grew out of the fact that in the past couple of years, we had available a co-curricular transcript, but it was very labor intensive," said Student Services Coordinator Mark Potrafka. "The system grew out of another system of tracking membership in fraternities and sororities."

The transcript serves as a means of keeping track of student involvement at the university which enhances

growth and development as a professional. The system automatically records participation in recognized student organizations, leadership experiences and service learning activities. Students can also add any other experiences relevant to professional growth. Potrafka stated that about 120 of 170 campus organizations already utilize on-line services to track officers and membership.

Membership links to each student's transcript were established in Fall 1995. Activities prior to that semester must be hand-entered by the student; however, Student Activities offers help to students interested in updating their transcripts.

Along with basic activity and leadership information, students can add information about what they learned as well as list references in text boxes located within the transcript. Also

# WHAT'S UP AT UMR

All organizational meeting times and places are provided by the Student Activity Center, 218 UCW. Please send all changes to the aforementioned office.

## Wednesday

9:30 am: UMR Annual Central Missouri Economics Conference, UCE

12:00 pm: UMR Booster Club, G&D Steakhouse

2:00 pm: Miner baseball, Harris-Stowe State College (doubleheader), UMR Baseball Field

2:30 pm: StuCo Lawyer, Walnut

3:00 pm: Lady Miner softball, Evangel College (doubleheader), UMR Softball Field

3:30 pm: UMR Psychology colloquium, "The East Asian Advantage in Mathematics: Due to Instruction or Intelligence?" 101 HSS

6:00 pm: MSM Spelunkers Club 204 McNutt

6:00 pm: Associated General Contractors, 117 CE

6:00 pm: American Concrete Institute, 218 CE

6:00 pm: Eta Kappa Nu, 104 EE

6:00 pm: Society of Mining Engineers, 216 McNutt

6:00 pm: Aikido Club, 304 Rolla Bldg

6:30 pm: Blue Key, 216 ME

7:00 pm: UMR Psychology colloquium, "Natural and Unnatural Learning: Implications for Instruction," 204 McNutt

7:00 pm: UMR Amateur Radio Club, 110 Buehler Bldg

7:00 pm: AICHe, G-3 Schrenk

7:00 pm: American Society of Civil Engineers, 117 CE

7:00 pm: The Davinci Society, Meramec

7:00 pm: Panhellenic Council, Missouri

7:00 pm: ASCE/AGC, 114 CE

7:30 pm: Tau Beta Sigma, 125 Schrenk

8:00 pm: Kappa Kappa Psi, 215 ME

8:00 pm: Tau Beta Sigma, 216 ME

8:00 pm: SUB April Fools Comedy Series: Gregory Carey, UCE Cafeteria

## Thursday

10:00 am: UMR Staff Council, 109 CSF

11:30 am: UMR Civil Engineering Graduate seminar, "Constitutive Laws for Rebars in Cracked Reinforced Concrete Panels," 217 CE

3:30 pm: UMR Ceramic Engineering seminar, "Mathematical and Computational Modeling of Coupled Heat and Mass Transport in Porous Media Exposed to Elevated Temperatures," 204 McNutt

3:30 pm: Smart Engineering Systems Lab Seminar Series (SESL), "Generalized Approaches to Deterministic Scheduling Problems," 103 EMgt

5:30 pm: Sigma Tau Delta, 117 ME

6:00 pm: Toastmasters, 109 CSF

6:00 pm: UMR Gaming Association, 314 CE

6:00 pm: Christian Campus Fellowship, Mark Twain

6:30 pm: Intercollegiate Knights, G-5 HSS

6:30 pm: American Nuclear Society, 227 Fulton

7:00 pm: ASCE/AGC, 114 CE

7:00 pm: AICHe, G-3 Schrenk

7:00 pm: Alpha Phi Omega, 114 CE

7:00 pm: Intervarsity Christian Fellowship, Sunrise

7:00 pm: EIT Review: Thermodynamics, 114 CE

7:30 pm: St. Pats Committee, 107C ME Annex

7:30 pm: Koinonia, Walnut

8:00 pm: UMR Solar Car Team, 103 EMgt

8:00 pm: College Bowl, 317 CE

8:30 pm: Gamma Beta Sigma, Mark Twain

## Friday

9:00 am - 4:00 pm: UMR Intelligent Systems Center Open House, 331 ERL

3:30 pm: All For Love, Silver & Gold

7:00 pm: SUB movie: Braveheart, 104 ME

7:00 pm: SHOW-ME ANIME, 204 McNutt

9:00 pm: SUB movie: Braveheart, 104 ME

## Saturday

1:00 pm: UMR Mineral Auction, Planje Auditorium, McNutt

3:00 pm: Tau Beta Pi, 114 CE

6:00 pm: Student Leaders Recognition, Centennial

7:00 pm: SUB movie: Braveheart, 104 ME

8:30 pm: UMR Spanish Club, UMR Student Council Intercultural Relations Committee and the UMR Division of Student Affairs present the folkloric group "Colombia," TJ South Lounge

9:00 pm: SUB movie: Braveheart, 104 ME

## Sunday

1:30 pm: Chinese Student Association, ME

4:00 pm: Alpha Phi Alpha, Silver & Gold

6:30 pm: Gamma Beta Sigma, 109 CSF

8:30 pm: Omega Sigma, 204 McNutt

9:00 pm: AFROTC Blue Sabres, 208 Harris

## Monday

12:00 pm: Toastmasters International, Missouri

12:00 pm - 5:00 pm: Circle K bone marrow registry and drive, Miner Lounge

2:00 pm: Miner baseball, Evangel College (doubleheader), UMR Baseball Field

3:30 pm: Council of Grad Students, 117 ME

4:30 pm: UMR Chemistry seminar, presented by Hyoryoon Jo, G-3

Schrenk

5:30 pm: Raiders, 302 Harris

6:00 pm: GDI, Silver & Gold or Meramec Room

6:00 pm: Aikido Club, 304 Rolla Bldg

7:00 pm: National Society of Black Engineers, 204 McNutt

7:00 pm: EIT Review: Circuits, 114 CE

8:00 pm: College Bowl, 317 CE

8:00 pm: Eta Kappa Nu help session, 101 EE

8:00 pm: Da Vinci Society talk show on KMN 89.7 FM

## Tuesday

4:30 pm: UMR Chemistry seminar, "Science and Technology," G-3

Schrenk

4:30 pm: SAF Board, Walnut

5:30 pm: UMR Interfraternity Council, 216 McNutt

6:30 pm: Student Council, 204 McNutt

6:30 pm: Chi Epsilon, 117 CE

7:00 pm: UMR Film Series, "The General," Leach Theatre, Castleman

7:00 pm: UMR Faculty Peace Research Group and Rolla Peace Issues Group seminar, "Maquiladora: The Child Behind the Labor," First United Methodist Church, 803 Main St.

7:00 pm: ASCE/AGC, 114 CE

7:30 pm: St. Pats Committee, 107C ME Annex

9:00 pm: Arnold Air Society, 208

## Missouri Miner

The *Missouri Miner* is the official publication of the students of the University of Missouri-Rolla. It is distributed each Wednesday at Rolla, Missouri and features activities of the students of UMR.

All articles, features, photographs, and illustrations published are the property of the *Missouri Miner* and may not be reproduced or published without written permission.

The *Missouri Miner* encourages comments from its readers, and will attempt to print all responsible letters and editorial material received. All submissions must have a name, student ID number, and phone number for verification. Names will be withheld upon request.

Submissions for publication must be in our drop box (first floor of the Norwood Hall, Room 103) by 3:30 p.m. on the Thursday before publication. Submissions, not including personals, will be accepted through E-mail (Internet) at MINER@UMR.EDU. The *Missouri Miner* reserves the right to edit all submissions for style, grammar, punctuation, spelling, length, and matters of good taste.

The *Missouri Miner* is operated by the students of UMR and the opinions expressed in it do not necessarily reflect those of the university, faculty, or student body.

# OPINIONS

Age 18, 1993

Elizabeth Suto.

Killed by a drunk driver  
on February 27, 1994, on Bell Blvd.  
in Cedar Park, Texas.

If you don't stop your friend  
from driving drunk, who will?  
Do whatever it takes.

**FRIENDS DON'T LET FRIENDS DRIVE DRUNK.**

## April Fools not so funny

I am writing in regards to the back page of the latest issue of the miner. I appreciate the attempt at humor (who wouldn't this time of year), but I did find the article on "UMR's Other Promise" offensive.

I understand that the male to female ratio on this campus is not one where the men feel they have the advantage as far as dating is concerned. But to joke that "one can exchange a fully paid semester for an all expense paid date with a member of the UMR secretarial staff" is outrageous. The secretarial staff on this campus works hard and should not be portrayed as a group who is up for grabs. While you were very gender non-specific about the secretarial staff, it is obvious on

this campus that this group is largely female. By offering them in exchange for money (and isn't that all that a fully paid semester really represents) you demean the work that this group does and women in general.

And why do female students need counseling and guidance? Are we somehow inherently misguided and need help? Obviously, that is not the case. I don't see that the support being offered to other minorities on this campus centering around police officers and psychiatrists. Again, another subtle put down of women.

So while I want to be amused, don't do it at the expense of women.

Anita K. Chancey

## To the Editors of the Miner

Thank you for including the advertising insert "She's a Child Not a Choice" in the March 20, 1996 edition of the Miner. It was filled with factual information and moving testimonies from the side of the abortion issue that does not always receive equal attention from the media.

I was greatly surprised to learn that abortion is the leading cause of death in our country, causing 46% of the total deaths. I don't understand how the U.S. can pour money into life-saving medical research for AIDS and cancer to cite two ex-

amples, while at the same time supporting the blatant disregard for life by funding the abortion industry. Does this make sense?

Thanks again for having the courage to publish articles that would not be received in a positive light by every single reader.

As the Easter holiday approaches and passes, it proclaims that Jesus Christ, not abortion or "choice" or anything else, is the answer to this and all problems. Thank you.

## RESERVE OFFICERS' TRAINING CORPS

## PREREQUISITE: ADRENALINE

Drive. Intensity. Those aren't words you're likely to see in many course requirements. Then again, Army ROTC is unlike any other elective. It's hands-on excitement. ROTC will challenge you mentally and physically through intense leadership training. Training that builds charac-

ter, self-confidence and decision-making skills. Again, words other courses seldom use. But they're the credits you need to succeed in life. ROTC is open to freshmen and sophomores without obligation and requires about 4 hours per week. Register this term for Army ROTC.

## ARMY ROTC

THE SMARTEST COLLEGE COURSE YOU CAN TAKE.

## Dr. David Miller to give lecture

Kim Gerke  
Staff Writer

Dr. David C. Miller will present two slide lectures on Thursday, April 11. The slide lectures will cover American art and literature.

Dr. Miller, an associate professor of English at Allegheny College, is an expert in the cultural relationship of nineteenth century art and literature. In 1989, he published *Dark Eden: the Swamp in Nineteenth-Century American Culture* with the Cambridge University Press. He has also recently edited a volume of essays on art and literature from titled *American Ico-*

nography: *New Approaches to Nineteenth-Century Art and Literature*.

His first lecture, "Swamp and Jungle Imagery in 19th Century American Art", will include the Hudson River School of art and its relationship to the literature of the time. This lecture will be at 1:30 p.m. in 138 Castleman Hall.

The second lecture will be "Sarah Orne Jewett's 'A White Heron' and Tonalism." It will take place at 3:30 p.m. in G-9, Humanities and Social Sciences Building. Refreshments will be offered before the presentation.

The lectures are jointly sponsored by the office of the vice chancellor of academic affairs and the departments of English, Philosophy, and Liberal Arts. Both lectures are free and open to the public.

## Crime on campus: St Pat's bombing and car thefts

Roy Jacobs  
Staff Writer

Authorities are still investigating a home-made bomb that was set off at the Pi Kappa Alpha fraternity on March 16, the weekend of St. Pat's. The explosion was set off in one of the house's men's bathroom during a party.

Police believe that blood found at the site of the explosion is that of the person who planted the bomb. Law enforcement officials believe that the person was trying to plant the bomb

in or near the toilet when it went off.

"The explosion was strong enough to destroy the toilet," Chief Bill Bleckman commented. "Someone could have been seriously injured if they had been in the vicinity of the explosion." The blast was so strong that pieces of the toilet were embedded into the ceiling and surrounding walls.

According to police, witnesses reported seeing one male and two female subjects leaving the scene a short time after the explosion. Members of the fraternity chased after the suspects but were unable to catch them.

Authorities believe that the person or persons responsible are not a part of the student body. Ross Thomasson, president of Pi Kappa Alpha, would

only comment that a prepared statement had been sent out.

In another continuing investigation, arrests have been made in the connection of vehicle break-ins that have occurred on and off campus. These individuals are suspects in twenty-seven break-ins, thirteen of which were on campus and fourteen others throughout in the city.

Police feel strongly that these individuals are responsible for the thefts and more arrests are expected. Chief Bleckman commented "that the reason we are moving slowly is that there were so many individuals involved and the number of break-ins was so great that we have to figure out who did what crime."

For fast relief from the nagging ache of taxes, we recommend TIAA-CREF SRAs. SRAs are tax-deferred annuities designed to help build additional assets—money that can help make the difference between living and living well after your working years are over.

Contributions to your SRAs are deducted from your salary on a pretax basis. That lowers your current taxable income, so you start saving on federal and, in most cases, state and local income taxes right away. What's more, any earnings on your SRAs are also tax-deferred until you receive them as income. That can make a big difference in how painful your tax bill is every year.

Ensuring the future  
for those who shape it.

As the nation's largest retirement system, based on assets under management, we offer a wide range of allocation choices — from the TIAA Traditional Annuity, which guarantees principal and interest (backed by the company's claims-paying ability), to TIAA-CREF's diversified variable annuity accounts. And our expenses are very low,\* which means more of your money goes toward improving your future financial health.

To find out more, call 1 800 842-2888. We'll send you a complete SRA information kit, plus a free slide calculator that shows you how much SRAs can lower your taxes.

Call today—it couldn't hurt.

\*Standard & Poor's Insurance Rating Analysis, 1995; Lipper Analytical Services, Inc., Lipper-Directors' Analytical Data, 1995 (Quarterly). CREF certificates are distributed by TIAA-CREF Individual and Institutional Services, Inc. For more complete information, including charges and expenses, call 1 800-842-2733, ext. 5509, for a current CREF prospectus. Read the prospectus carefully before you invest or send money.

## The Life and Times... The Ketchup Wars

Hola, mis amigos y amigas! Como estas? No, no, no. You haven't accidentally started reading the Spanish Channel version of the Life and Times (La Vida y uh, Time-o's??). I just figured I'd start off this column with the language that all you lucky folks who'd traveled down the Cancun-way heard most last week. Not, of course, that you understood it, but heck, at least you got the cultural experience, right? (And, of course, that's just exactly the reason why college students travel down to Cancun, right? The cultural experience? Uh-huh, sure.) Anyway, I'm glad you're all back safe and sound. Of course, my mind will rest more easily tonight because I know that I didn't spend 7 days basking in the hot, tropical sun, baking my "dead-fish" white skin into an ugly, prunish state. But I digress.

You know, something occurred to me recently. Now, by this time, you all should know better than to question it when something occurs to me (actually, at moments like this, you probably ought to run, screaming, from campus).

But, no, I actually had a bit of divine inspiration occur to me, the rays of sunlight beating down upon that same pale skin and screaming, "Hey! You! Yes, you: the one griping because she doesn't have a tan! This week, thou shalt write about... condiments."

You know, I've generally learned not to question it when voices come out of sunbeams (that little kid in the comics has been talking to them for years), but this time, well, I was a smidgeon perplexed. "Condiments?!!?"

Unfortunately, this just prompted the voice to reply again. I was beginning to wonder if anyone was watching me. "Yes, silly, condiments. You know, ketchup, mustard, mayonnaise, all that stuff that comes out of those little, impossible to open, lots-of-fun-to-squish-with-your-car plastic packages that only decide to open easily when you're wearing your one and only suit and are swallowing lunch whole ten minutes before your interview with The Coolest Company To Ever Offer You Employment."

"Oh," I stammered, deciding it's sometimes best just to humor those

voices coming out of the sunlight. "Those condiments. I thought you meant the ones they sell as time-shares down in Panama City, Florida."

You know, for the first time in my life, I actually heard a sunbeam give an exasperated sigh. "Not condominiums, you twit!" (Yes, it actually called me a twit...) "Condiments!! Do I have to explain everything to you?"

"Well, actually, yes. See, I'm getting ready to graduate and I've three design projects due Thursday and I'm a smidgeon stressed and --"

For some reason, the voice cut me off. "Fine, fine, fine. I'll explain it to you, then. See, our society today is being held hostage by condiments. Before taking our seat at McDonald's, we must first do the Juggle Dance (i.e. trying to fill up itty-bitty-tiny little white, paper cups with ketchup while trying not to spill your medium Diet Coke all over that oh-too-healthy chicken sandwich) simply to retrieve 1 cubic inch of mushed-up, processed,

see Life, page 14

## SUBCONSCIOUS

The SUB April Fools comedy series starts off tonight with Gregory Carey. He will be appearing in the University Center-East Cafeteria at 8:00 p.m. There will be another comedian each Wednesday night this month.

The SUB movie this weekend is the Academy Award winning film *Braveheart*. Mel Gibson combines action, intrigue, and romance to tell the thrilling story of William Wallace, the 13th century Scottish patriot who led his people against the King of England. Gibson directs and stars as Wallace, who returns to his ancestral home after a long absence to find that the Scottish king has died without an heir, and Edward I of England, played by Patrick

McGoohan, has seized the throne. Wallace organizes a ragtag yet fiercely loyal army determined to fight against the powerful English forces. Betrayed by greedy Scottish noblemen, they are defeated at the bloody battle of Falkirk, but Wallace's courage and passion unite the Scottish people, who eventually win their freedom under Robert Bruce. *Braveheart* will be shown this Friday and Saturday at 7 and 9 p.m. in 104 ME.

SUB officer elections will be held April 25th. If you have served at least one semester on a SUB committee, you are eligible to run for one of these leadership positions. Stop by the SUB office in 218 University Center-West to fill out an application.

## THE MINER MUSIC REVIEW

Jeff Daniels

Music Reviewer

I will assume that you all had a pleasant spring break. I will keep this short and get to the reviews.

**Harmonica Fats & Bernie Pearl**  
**Blow, Fat Daddy Blow!**  
Bee Bump Records

Sound Quality 7  
Performance 7

**Blow, Fat Daddy Blow!**... with a title like that you can pretty much assume that this is going to be a harmonica-based blues cd. That assumption would be correct. Harmonica Fats and Bernie Pearl both have solid performances on this traditional, acoustic blues recording. As you may have guessed, Harmonica Fats is on the harp and Bernie Pearl is on the acoustic guitar. There seems to be a glut of acoustic harp and guitar blues on the market: Cephas and Wiggins, Charlie Sayles, Corry Harris, Guy Davis..., and before listen-

ing I was afraid that **Blow, Fat Daddy Blow!** would just be a rehash of what I have already heard. Luckily, that was not the case. This cd has two things going for it that a lot of acoustic guitar-harp combo's don't. First, they have a variety of blues styles and tempos, and secondly, they are not redoing a bunch of blues covers. Harmonica Fats (H. Blackston) and Bernie Pearl wrote every single song on the twelve track release.

Like I said, the cd has a variety of styles. If you want a slow, traditional southern blues try "Why Should I Holler?" If a nice, up-beat number is what you are craving, then you can't go wrong with the title track, "Blow, Fat Daddy Blow!" "Helicopter Blues" is also interesting and very good up-beat song. **Blow, Fat Daddy Blow!** also contains a pair of great instrumentals, "Blues For Mrs. B." and "Blues Kaddish." These are a tribute to Harmonica Fats' late wife, Mrs. Johnnie Blackston.

I was surprised by this cd and I know you will be, too, especially if you are a fan of the traditional acoustic blues.

Schtum  
Grow  
Sony

Sound Quality 7  
Performance 5

In today's society, the word *alternative* usually means something not of the norm. There are all kinds of bands out there that don't want to be labeled as rock but cringe at the label of pop. The music world decided to come up with a label of their own with Alternative

Rock. Since that day, hundreds of bands have moved to this labelling and found a home. Now what does this have to do with Schtum? Well, these guys are definitely an Alternative to the Alternative Rock. Ever wonder what

like anyone can point and say hey! Cymbal Crash! Other than that, it's pretty good.

The album opens up with "Post Modern." I'm not sure on what they meant by this title, but upon my initial listening, I thought this was definitely new and had potential. The album went on, with songs like "Run," "Millennium," "Space," and the album's breakthrough and stumble song, "SkyDiver."

Well, if you like Post Modern music, like Morrissey and The Cure, then it is likely you will like this band. The somewhat upbeat tempo of a few songs on the album might get you hopping around like a bunch of trendies at Kennedy's (heh, that rhymes). The majority of the songs, though, did leave me with the influence of Echo and the Bunnymen, sped up a bit. I personally like a lot of the older Post Modern music like Blondie, Echo, Thompson Twins, etc...so I kinda liked a few of the songs, but most of it was just to "common" for me. I suggest you all pick up a copy or try to listen to it at a local music store and make your own decision.

Jimbo

Robert Smith of The Cure would sound like when singing with the Gin Blossoms? The wailing vocals and arm-swaying guitar rhythms are almost monotonous on this album. The drums are pretty good with a variety in beats and pretty much Que'd Cymbal Bashes. It's

## Webster's Ho

### 20 (or so) lines by a man with a very large dictionary

**Time:** Measure of duration; system for identifying the moment; rhythm in music.

The spray beat down upon my back, notching the moments passing. As the daily race began, my mind flowed backwards momentarily. I swam through sands of time. Elders in contemplation, beards flowing down upon books. A tree, once a frail wand, burgeoning now in 40-foot imposition to the encroachment of Dorsett. Rings around rings around eyes, marking the reading of pale hills, modest proposals, reams of type rolling like the river, click, click, click.

Steam rose, filling the spaces surrounding my melting frame. An olive barn coat, once an armor, now lies decomposed, fit for the nesting of swallows. Rivers of amber, clocking a thousand years in one stormy night as I dared

thunder to strike me from the rooftop. The taste of blood in my mouth, as a child, an adolescent, a man. Give me back my crayon! Who's going to pay for the tack in my chair! These dishes are yours! Who wet in Denny's bed? We love your words! We don't know you -- you must leave. Just take some pictures of my very good American friends. I saw him again in a magazine, he was smiling. I imagine him that way now.

The water jets forge a pulsing beat. Noise becomes fleeting astral inspirations. The songs of Venus. The aspiration of Mars. Sailships of impulse and desire jettison me through letters, symbols, plans and formulations. I'd like to teach the world to sing, but their voices know but words. Postcards from passing friends profess temporal visionary wonder. Anonymous greetings of familiar strangers. Hands once held grow to

fit no more. Is the face I miss the one you wearing now? The showering heat becomes summer. An endless stretch of protest to the exhumation of ends. I have learned to stop wearing plastic. I will no longer let the Dehumanizers dance in my living room. Once I surfed down a mountain. Now I stem the tides of responsibility, yet even still at times fail to heed the wispig girl. Hearts will overflow. Steady as she goes, there is no more time for listing.

I am scalded. That dog that has bitten me since I was seven. The master grants a coercive smile as the altruists trudge on. Lists of transitory rules. Broken vows of constitution. Reaffirmations in the moment. The chill of the tiles rises through newborn feet, envelopes me like a vacuum. Doors scream along with my child. I reach for a towel to dry my existence.

## The StuCo Minute

Karl Schmitt

StuCo

Do you want to get more involved on campus? How about applying for a chair position on Student Council? Since most of the work within Student Council gets done through its committees, becoming a chair is one of the best ways to impact the campus. Student Council is now taking applications for chair and assistant chair positions for all of its ten committees.

A brief description of each committee follows. Campus Improvements works on physical changes to campus. Computing Affairs deals with

the computing needs of students on campus. External Funding reviews applications for Club Appropriations and Non-Varsity Sports funding. Intercampus Communications works on improving relations with student governments on other campuses. Intercultural Relations assists UMR-recognized organizations in coordinating intercultural events. Parent-Alumni Relations serves as a liaison to the Parents Association and the Alumni board. Professional Societies provides support for student professional societies at UMR and coordinates events between them. Public Relations works to improve Student Council's visibility and coordinates various projects that improve Student Council's image. Student Services improves current University services and provides services which help students. University Rela-

tions acts as a liaison between students and the university. If you are interested in becoming a committee chair, just pick up an application at the Student Council office (202 UC-West) and turn it in by Wednesday, April 17th.

At the Student Council meeting on March 26, officers were elected for the 1996-97 school year. The new officers are as follows: Josh Grove, President; Rich Lee, Vice President of External Affairs; Karl Schmitt, Vice President of Internal Affairs; James Cane, Treasurer and Amy Pousson, Recorder. Congratulations to all of the new officers, and thanks to all of the old officers, chairs, and other Student Council members who worked to make this a past year a very successful one.

Tim Bond

## What do we expect from the government?

As the world looms before us, we must choose certain philosophies on which to base our decisions; the sooner we define our options and identify the myriad of possibilities, the quicker we can choose a course of lifestyle. One of the most pervasive aspects of life is the role of the federal government. In reconciling our relationship with the government, we must first ask, *What do I expect of the government?*

This question lies at the heart of one's political, economic, social, and cultural development. One may believe the government's role to be controlling inflation, creating jobs, protecting individual liberties, regulating environmental degradation, or one of a number of other duties. It is the combination of several of these perceived governmental duties that defines one's political ideology; the two or three that we determine

to be priorities establish the amount of involvement we choose to pursue.

For example, if one perceives reducing tax rates and cutting federal spending as priorities, he need not be actively involved to have his opinions addressed; under current trends, these issues are dealt with on a daily basis. Environmental advocates and watchdogs of liberty, however, need to be very active in order for their opinions to be heard. The further one moves from "mainstream" issues, the more effort he must exert to be recognized.

The average American has conflicting expectations of government, which is understandable. *John Q. Public*, who sincerely believes that tax and spending cuts are necessary to balance the budget, also believes that the majority of federal programs should be maintained. This seemingly paradoxical stance is quite

prevalent, and makes policy-making in Washington difficult. This is where one's political ideology comes into play: if one believes that government should actively provide services to its citizens, he must also be prepared for an increased tax rate. The person who maintains that government activity should be reduced can expect lower tax rates. Europeans pay considerably higher taxes than Americans, but their governments provide more services and regulations than does ours.

Defining our expectations of government compels our individual development, but one must discover an ideology within himself that encourages realistic expectations. As issues become increasingly complex, the ability to realistically identify resolutions is essential to one's effort to become a complete person and contribute to today's society.

## Students to nominate best parents, staff

Stuco Source

Every year some lucky UMR student's parent(s) are honored for their special qualities during Parents' Day, October 19. Do you think your parent(s) deserve this honor? If so, come by the Student Council Office (202 University Center-West) and pick up an application. World Wide Web users can fill out the form on the stuco homepage. Fill you the application and write an essay, maximum 500 words) explaining why you believe your parent(s) should be the chosen Parent(s) of the Year. Please call the

office (341-4280) with any questions. The deadline to fill out and return the application is Wednesday, April 24. You only have a couple of weeks, so you need to act quickly! Let your parent(s) know how much you appreciate them by nominating them for Parent(s) of the Year.

Student Council is also seeking nominations for Staff Member of the Year. Two staff members will be selected; one award is for a salaried staff member, and one for an hourly staff member. These are staff who have gone above and beyond the call of duty in their service to students. To nominate a staff member, submit his or her name nominated them, or e-mail the information to [stuco@umr.edu](mailto:stuco@umr.edu). The deadline for these nominations is also April 24, so you need to hurry!

The University of Missouri-Rolla baseball team will host Harris-Stowe today at 2 p.m. at the Miner baseball field. This weekend the Miners will travel to Bolivar to take on Southwest Baptist in a Mid-America Intercollegiate Athletic Association matchup.

Earlier this season the Miners split a doubleheader with Harris-Stowe losing 5-0 and winning 11-0. According to head coach Travis Boulware the games with Harris-Stowe will be important

#### This week:

for achieving season goals. "We need to win all our non-conference games left. That was a goal we set this weekend. If we can win the rest of our non-conference games and split our conference games we can get above .500."

The Miners also travel to Bolivar to face Southwest Baptist in MIAA play. Doubleheaders are scheduled for

Brock Lercher puts the heat on in a game from last month.

Dave Repp

Friday and Saturday, both with 1 p.m. start times. Boulware said Southwest Baptist is a, "Decent team. If we play well, we should at least split." However a sweep could help the Miners

dramatically in the MIAA race for the playoffs. "We can make it as the number four team, maybe the number three team if we sweep Baptist and split with UMSL. If we finish at .500 in the

conference we can make it as the number three team," Boulware said. The Miners are 11-14-1 overall and are 3-6-

## Lady Miner softball gets up and down over break

Carl Berkelman

Staff Writer

After many unsuccessful attempts, the Miners finally played their first home game. About forty fans braved the cold and drizzle to watch the Miners battle Missouri-St. Louis on Saturday, March 30.

Game one was a pitchers duel. The only run of the game came in the bottom of the sixth inning. Brandy Broeckling singled up the middle. Melanie Rohrer then laid down a sacrifice bunt to move Brandy to second. However, after the out was made at first, they threw the ball wild into second and as the ball rolled into the

outfield, Brandy scored all the way from second. Angie Bax pitched out of a jam in the seventh to get the win. Bax went the distance in the win, giving up no runs on only five hits, two strikeouts and no walks. Talking about her game, Bax commented "It was a good team effort. Nikki [Wray] called a good game behind the plate."

"Angie [Bax] pitched a good game," said Coach Burwell. "She had a good defense behind her." That she did, the defense converted 12 ground-ball outs with no errors and Wray threw out a potential base stealer.

Game two did not go quite as well, however. Missouri-St. Louis started off the scoring with a sacrifice fly in the first for a 1-0 lead. Missouri-St. Louis put up single runs in the second and third to make it 3-0. The Miners cut into the lead in the fourth with a sacri-

fice fly by Bax scoring Melanie Rohrer to make it 3-1. UMR could only put one more run on the board in the sixth with an RBI ground-out by Jaime Ostmann. The final score was 7-2 Missouri-St. Louis.

#### This week:

UMR at Central Methodist  
Sat. 2:00 p.m. Fayette, MO

UMR vs. Lincoln  
Mon. 1:00 p.m. UMR softball field

As for the rest of the action during the break, the Miners faced Southwest Baptist on April 2nd. In game one, UMR came from behind with three runs in the sixth and four in the seventh to win 7-4. The second game went to extra innings. The Miners won it on an RBI single in the bottom of the eighth

by Broeckling 5-4. They then played two against Missouri Southern. The Miners lost game one 13-0 giving up five in the first, four in the second, and four in the third. The second game was not much better, a 15-5 defeat. It was 6-2 Southern going into the top of the fifth, but Southern scored nine in their half and UMR could only come up with three in their half ending the game.

Their next opponent was McKendree. They dropped game one 4-0. The Miners took game two with RBI singles by Jen Damron and Jaime Ostmann 2-0. The Miners are now 16-11 overall and 3-5 in the MIAA South division.

Their upcoming games include a doubleheader at Central Methodist on April 13 and their next home date is on Monday, April 15 at 3 p.m., a rescheduled game against Lincoln.

## Kentucky on top in NCAA

Dwayne Doshier  
Staff Writer

In the game many billed as the "true" championship game, the Kentucky Wildcats defeated the UMass Minutemen, 81-74. Kentucky built a 36-28 lead at half-time, primarily relying on a brutal press to produce turnovers and reduce the threat of the UMass transition game. Kentucky opened the second half by scoring the first seven points, and it appeared as if UMass was in serious trouble. But the Minutemen were able to battle back to keep the score close. Every time that the 'Cats would build a lead, UMass would again put on a run to keep the score close. However, in the end, the Wildcat press, combined with the quickest and most responsive inside defense in the country shut down UMass and All-American Marcus Camby. Kentucky would be in its first championship game in 18 years.

What about the other game, you ask? Oh, that one. The Syracuse Orangemen were able to upset Mississippi State 77-69. The key to the game was turnovers. Syracuse only had five, while State coughed it up 21 times allowing for 25 easy transition points. Syracuse leader John Wallace had 21 points, including six down the stretch, to lead all scorers. This is not to say that Wallace was the total offense. Teammates Otis Hill and Todd Burgan scored 15 and 19 respectively. State could have won this game except for one thing, the game plan. The plan was to loft

threes or dump down to Eric Dampier. Shooting the trey kept State close in the first half, even while turning the ball over, but in the second half, State shot only 35 percent from the field. The poor shooting combined with Dampier turnovers and a low scoring output, 11 total points, sealed the win for the Orange.

In the final, everyone expected a Kentucky win, but the question was by how many points. Twenty, thirty, or more? Surprise, a Kentucky win by only nine points. MVP Tony Delk led Kentucky with 24 points and freshman Ron Mercer put in 20 as the Wildcats scratched out a 76-67 win over the Orangemen. Syracuse managed to keep the game close throughout, even until the end. With Kentucky leading by only five points with less than four minutes to play, the Orange were in position to make a run to upset the heavily favored Wildcats. With less than a minute left, and Kentucky still only leading by five points, Syracuse guard Lazarus Sims attempted to pass to John Wallace. Kentucky reserve Mark Pope, quiet through the whole game, deflected the pass to a teammate, but more importantly, was fouled by Wallace. The foul was Wallace's fifth, so bye-bye. As Wallace watched from the bench, Pope hit both free throws to put the game out of reach, 74-67. This was the play of the game for Kentucky, if not the play of the year.

The Wildcats had won the championship in a game closer than anyone expected but many enjoyed watching.

## Baseball

from page 7

1 in the MIAA.

This past weekend the Miners split a four game series with the Pittsburg State Gorillas. In the first game Saturday the Gorillas drilled the Miners 16-4. The Gorillas lit up starter Lance Privett early. A Mike Williams passed ball along with run scoring doubles by Dan Esposito, Greg Sergreaves and Ryan Darnst brought in four runs in the top of the first giving Pittsburg St. a 4-0 lead. It was a lead they would never relinquish. After the Gorillas ran the lead to 9-0, the Miners tried to rally in the fifth. The Miners got four runs on the inning on a run scoring single by Todd Rastorfer, followed by a three-run home run by Nathan Wade. That was as close as the Miners would get. Pittsburg State muscled up for seven more runs and eight more hits for a 16-4 Gorilla victory. Privett took the loss for the Miners, while Jake Hanson earned the win for Pitt St.

The Gorillas also won the nightcap of the Saturday doubleheader, this time by a score of 6-2. Pittsburg State once again took an early lead. In the second inning RBI singles by Mike O'Haver and Chris Cochran gave the Gorillas a 2-0 lead. The Miners would come back to tie it in the bottom half of the second. An error by Gorilla third baseman Jer-

emy Smith set up two-run home run for UMR's Kevin Hill, tying the score at 2-2. Pittsburg St. regained the lead in the third on an RBI double by Matt Kraus. The Gorillas went on to win 6-2. Chris Kohnz took the loss for the Miners, while Dustin Storm picked up the victory for the Gorillas.

The Miners swept a doubleheader from Pittsburg State on Friday winning the first 15-14 over 10 innings and taking the nightcap 4-3. In the first game the Gorillas took advantage of wild Miner pitching to take a 12-4 lead after the fourth inning. Miner starter Brock Lercher gave up 10 earned runs and eight walks over just 3.1 innings of work. The Miners would comeback however. Entering the bottom of the eighth the Miners found themselves down 14-7. The Miners would score four runs in the inning on RBI singles by Rastorfer and Ipock along with an RBI-double by Matt Bryant and a Pitt State error. In the ninth the Miners would tie the score at 14-14. Bryant,

Rastorfer and Andy Dial all contributed with run scoring singles. In the bottom of the tenth the Miners took advantage of a bases loaded walk from Pittsburg State's Storm to win 15-14. Hill picked up the win for the Miners, with Nate Young taking the

loss for the Gorillas. Bryant was 4-for-6 with four RBIs for the Miners, Nathan Wade was 3-for-5 with two RBIs and Rastorfer was 3-for-5 with three RBIs. The Miners won the second game on Friday 4-3. The Miners took a 2-1 lead in the third on run scoring singles by Bryant and Williams. In the fifth, the Miners upped their lead to 4-1 on an RBI triple by Bryant and a run scoring single from Keith Eisenbath. After the Gorillas scored two runs on an RBI single and an Eisenbath error, Williams came on to earn the save and secure a Miner win.

Mike Banfield earned the win for the Miners allowing five hits and just two earned runs on the day. Boulware commented on the four game series. "We're scoring some runs. The guys we thought would hit at the beginning of the season are starting to hit. But we're not getting the big hit when we need it. We're leaving too many runners on base." Boulware also sees pitching as a concern. "The pitchers are having problems throwing strikes. Mechanically we don't see anything wrong. The pitchers are overthrowing."

The Miners were scheduled to play a doubleheader against Lindenwood yesterday, however the results were unavailable at press time.

## JUMBLE THAT SCRAMBLED WORD GAME

by Henri Arnold

Unscramble these four Jumbles, one letter to each square, to form four ordinary words.

TINFE

NEPOR

DINCAR

CUDINE

WHAT THE PRESS-MAN'S WIFE WORE TO THE PARTY.

Now arrange the circled letters to form the surprise answer, as suggested by the above cartoon.

Print answer here: A

Bucheck,

When are you going to fix yo motorcycle and take me for a ride?  
Redheaded Stepchild

Heather Beth,

Life is too short to get upset. So people think you're pretty cool!  
AOT  
Amy S.

Dooley,

Dilbert! Dilbert! Dilbert!  
want Dilbert in the Miner!  
The Majority at UMR

## Join the

### SEVEN TIPS FOR THE WEEK

1. Use both sides of the page. Paper makes up about 41% of our trash.
2. "Do you need a bag?" Think twice before taking a bag if your purchase is small.
3. Plant a tree. The average American uses the equivalent of seven trees every year.
4. Recycle your soda cans. When you toss out one aluminum can you waste as much energy as if you'd filled the same can half full of gasoline and poured it on the ground.
5. Recycle this newspaper. Newsprint is the easiest kind of paper to recycle, because it has no chemicals or fillers.
6. Stay away from "styrofoam." Polystyrene foam is non-biodegradable. Five hundred years from now, that foam cup

you drank from might be sitting on the Earth's surface.

7. Spread the word. To save the world, it will take everyone. We need you.

 Collecting resumes to be submitted to company by the COC

## Transcript

included by developers are lists of action verbs and development descriptions to the files to help students develop a thorough activity description.

Uses for the co-curricular transcript include communicating to others the professional and personal skills developed while at the university, aiding resume development and documenting participation and leadership officially. The transcript serves also as a required part of students involved in

the UMR Promise, a guarantee to upcoming students that they will find work within six months of graduation, given certain grade, involvement and class load criteria.

Students can access their co-curricular transcript through the co-curricular page under their Student Information account (STUINFO). The url is <http://cosmos.cc.umn.edu:2510/studentapps/stuinfo.html>. Students can request copies of their transcripts

by clicking the appropriate icon and can pick up the transcript within one working day from the Student Activities Office

The co-curricular transcript will eventually spread to the other University of Missouri campuses. Part of the impetus for further developing the fraternity/sorority tracking system was a desire on the part of the University of Missouri as a whole for an activity tracking system.

## Life

from page 5

tomato guts!! Is this what this country has come to? And just exactly what naturally-occurring substance produces mayonnaise? And do you farm mustard?

What about relish, hmmm? I mean, how come people who hate pickles like relish, but those who hate relish can eat so many Klausen dills that they start resembling that stork with the funny hat on their commercials? And how can anyone not like peanut butter?? (Okay, so peanut butter's not a condiment; sue me.)

At this point in the conversation, it

occurred to me that I should probably be running for my life, so I did... after backing away from the ray of sunlight very, very carefully. The last thing I heard was something about those weirdos who think that honey and dijon (whatever on earth dijon is) should be mixed together and poured over various chicken parts. I don't get it. Of course, sometimes, maybe we're just not supposed to. Anyway, I'll see you all next week, and until then, rebel: dip your french fries in mayo instead of ketchup.

## Announcements & Financial Aid

### Alpha Phi Alpha workdays

Members of Alpha Phi Alpha Fraternity will hold their workday on Saturday, Apr. 20, from 8:00 am to 5:00 pm. Funds will be raised for Chapter delegates to attend the national convention. The fraternity members will work at various jobs on a first come basis. Persons interested in contributing to this fund-raising effort, while having someone complete a task that needs to be done, shall contact the Alpha Phi Alpha Fraternity at 364-9548.

**Free Aerobics Classes,** daily this semester in Aerobics room of the Multi-Purpose Building. Call Sarah at 4971 or Stephanie at 4225.

### For Your Information:

The parking area on the east side of Castleman Hall is a 30 minute parking zone. The area is for visitors to the campus and for those who have busi-

ness in Castleman than can be completed in 30 minutes or less. The cost of a ticket for violating the 30 minute time limit is \$3. Please be considerate of those who need to park there.

### Keep Up to date on UMR Student Government

Have you ever wished you knew more about what was going on in student government at UMR? Have you wished you knew what issues STUCO was working on? Well, we have the answer for you. If you are interested in these topics, or basically anything about STUCO, you can now be placed on the listserv to receive e-mail that STUCO sends to its members with just a few mouse clicks. In the mail you will receive, you will find minutes from meetings, announcements of upcoming events and meeting as well as occasional discussions of issues STUCO is concerned with. To be placed on the listserv (computer list that STUCO mail is sent to, for distribution to members), simply get on the World Wide Web, (use Netscape from any computer on campus) and go to the STUCO homepage (<http://www.umar.edu/~stuco>). Then go down to Student Council Forms on this page and click Subscribe to STUCOLST listserv. Don't miss this chance to get involved, and know what is going on on our campus.

Students are reminded to turn in all job offers to the COC as soon as possible after they are received. Forms are available in the COC on the third floor of Norwood Hall. These statistics are very helpful for UMR students as well as companies interested in recruiting at UMR. UMR job search statistics depend upon the information collected. Your cooperation is very appreciated.

Students are reminded that RESUMES ARE NOT AUTOMATICALLY SUBMITTED BY THE COC to companies for pre-screening for on-campus interviews. Each student must submit their own resume through the system to each company in which they are interested.

Any students wishing to apply for financial aid for the Summer 96 semester, must complete a Summer 96 Financial Aid Application. By completing this form you will be considered for Federal College Work Study, Federal Perkins or University Loans, and Ford Direct Subsidized and Unsubsidized Loans. Applications available in the Student Financial Aid Office beginning March 1, 1996 until April 12, 1996.

There is a new service the Admissions & Student Financial Aid Office is offering on the World Wide Web called FASTWEB (Financial Aid Search Through The Web). Its location on the web is "<http://web.studentservices.com:80/>

fastweb/". FASTWEB is a freeuser-friendly service in which a student completes an online personal profile pertaining to his biographical information, including parent/student activities, background, and college/major information. Upon completion of this profile, FASTWEB begins its search, and within minutes the student is presented with a detailed online list of outside grants, scholarships, fellowships, internships, and loans he is eligible to apply for. Approximately 1200 new awards are added to the FASTWEB database each day. FASTWEB automatically updates each student's profile based on these new awards. FASTWEB also provides a general information section describing various Federal Student Financial Aid programs. Students are encouraged to use FASTWEB to learn more about financial aid and keep abreast of eligible awards.

### AMERICAN ELECTROPLATERS AND SURFACE FINISHERS SOCIETY

The American Electroplaters and Surface Finisher Society offers separate scholarships for university or college undergraduates and graduates who demonstrate that their training (or research) is related to plating and surface finishing technologies.

#### ELIGIBILITY:

- \* Undergraduate students must be studying in metallurgy, metallurgical engineering, materials science or engineering, chemistry, chemical engineering, or environmental engineering.

- \* Selection factors include achievement, scholarship potential, motivation and interest in the finishing technologies.

- \* Must be a full-time student during the academic year the scholarship is received.

- \* Financial need is not a factor.

APPLICATIONS AVAILABLE IN THE STUDENT FINANCIAL AID OFFICE, G-1 PARKER HALL. APPLICATION DEADLINE: Must be postmarked by April 15, 1996.

### THE JOHN GYLES EDUCATION FUND SCHOLARSHIP

The John Gyles Education Fund is a private, benevolent endeavor established six years ago with the help of a Canadian/American benefactor. Each year financial assistance is available to students in both Canada and the United States. Full Canadian or American citizenship is a requirement. Awards are available to both male and female students for all areas of post-secondary study. A minimum GPA of 2.7 is required. Criteria other than strictly academic ability and financial need are considered in the selection process. Selected students will receive up to \$2,500.00. Deadlines for 1996 are April 15th, June 15th, and November 15th. Applications must be mailed by these dates.

To receive an application please send a stamped \*\*\* (US 32 cents), self-addressed, standard letter size (No. 10)

envelope to the following address: The John Gyles Education Fund, Attention: R. James Cogle, Administrator, P. O. Box 4808, 712 Riverside Drive, Fredericton, New Brunswick Canada E5B 5G4.

### SIGMA NU TRISTAN G. PINZKE MEMORIAL SCHOLARSHIP

Shall be male or female student enrolled in any Engineering discipline at the University of Missouri-Rolla, maintaining a 2.5 cumulative grade point average on a 4.0 scale, and be chosen because of their campus and community leadership and involvement. Financial need shall not be a requirement. Applications available in the Student Financial Aid Office, G-1 Parker Hall. Applications deadline: April 12, 1996.

### WILLIAM M. REISS FOUNDATION SCHOLARSHIP FUND

The William M. Reiss Foundation, established by Mr. Reiss prior to his death on July 14, 1975, is managed by Boatmen's trust company of Illinois. A portion of the income from the foundation is used for scholarships to accredited colleges and universities in the United States and its possessions. Scholarship recipients are limited to Graduates of publicly supported High schools located within the city limits of application must be answered on the form, with the exception of the essay question, which may be typed on a separate sheet and attached to this application. The application must be accompanied by a college transcript.

- \* (a) A statement of appraisal of the applicant in terms of potential for growth, character, leadership capacity, and career interest from three evaluators is required; at least one should be from a faculty member. The statements of appraisal must be returned directly to MCIB by each evaluator. Recommendations sent to MCIB by the applicant will not be accepted.

- (b) Applicants must ensure that MCIB has received these appraisals before application deadline. APPLICATIONS AVAILABLE IN THE STUDENT FINANCIAL AID OFFICE, G-1 PARKER HALL. APPLICATION DEADLINE: APRIL 30, 1996.

### NADCA CHAPTER 17 ANNUAL SCHOLARSHIP

In the interest of maintaining a high level of professionalism in Diecasting, Chapter 17 of the North American Diecasting Association (NADCA) sponsors a maximum of two (2) scholarships each year. Candidates must be undergraduates currently enrolled and having completed a minimum of sixty (60) credit hours toward a field related to Diecasting. Letter of application along with all information the student wishes to be taken into consideration should be submitted to the education chairman no later than April 15. There is no Belleville, Illinois. Students working toward a degree in medicine, but not nursing, are excluded. Post baccalaureate students will not be considered.

from page 2

APPLICATIONS AVAILABLE IN THE STUDENT FINANCIAL AID OFFICE, G-1 PARKER HALL. APPLICATION DEADLINE IS: MAY 1, 1996.

### THE MID-WEST CONCRETE INDUSTRY BOARD, INC.

#### APPLICATION REQUIREMENTS:

- \* Applicant's permanent residence as indicated on college records or the high school of record must be with the state of Kansas or Missouri and either (a) within a 150-mile radius from a point on the Kansas/Missouri state line at highway I-35; or (b) within a 25 mile radius of the main U.S. Post Office at the mailing address or a current MCIB member.

- \* Applicant must be pursuing a Bachelor of Science or higher degree that includes concrete and concrete design courses as an integral part of their degree program at an accredited college or university.

- \* Applicant must be enrolled or have completed concrete or concrete design courses.

- \* Applicant must not be a son, daughter, grandson, granddaughter, niece, or nephew or an Advisory Committee member.

- \* Part-time student applicants will be limited to junior class status or above. The scholarship award to part-time students will be commensurate with the costs.

- \* The applications must be typewritten. Responses to questions on the

formal application form or format which must be followed. Information such as grade point average and enrollment status is required and will be verified. The amount and recipient of each award will be determined by a committee consisting of the chapter chairman, the education chairman and the chapter trustees. Sponsored by an existing Chapter 17 member is recommended but not required. Application deadline: April 15, 1996 Randal B. Thomas, Education Chairman, NADIA Chapter 17, c/o Harvard Industries, Inc., 201 Rock Industrial Park Dr., Bridgeton, MO 63044, (314)291-3700 Ext. 234, FAX # (314)398-9994

### THE HEAVY CONSTRUCTORS ASSOCIATION OF THE GREATER KANSAS CITY AREA

The Heavy Constructors Association Industry Advancement Fund (HCA-IAF) Scholarship is directed toward individuals pursuing degrees in civil engineering, construction management, business administration, computer science, management information systems, mathematics or any other technical field. The prerequisite is that the student demonstrates a commitment toward a career in construction. Additionally, the student will also be required to work in summer construction while in school. The Association will assist with placement if necessary. We feel that summer employment in construction provides the student with valuable hands-on experience. Applications available in the Student Financial Aid Office, G-1 Parker Hall. Application deadline: April 15, 1996, to the Student Financial Aid Office.
